

CLIMATE CHANGE MITIGATION POLICY

Jubilant Industries Limited believes in Sustainable Development and recognizes the risk of Climate Change. The Company is committed to reduce carbon emissions and aims to:

- Create awareness among employees, their families, customers and community around the plants on climate change issues
- Implement energy conservation measures
- Reduce Greenhouse Gas emissions through process optimization and pollution prevention
- Use advanced information technology to reduce travel related emission
- Raise greenery & plantation in the plant and its vicinity

We shall endeavour to mitigate Climate Change by these initiatives.

Priyavrat Bhartia
