Rationale & Benefits of the Scheme

JIL & JACPL

The rationale for vesting agri and consumer products business into a wholly owned subsidiary JACPL and acquiring this business, by this entity is:

- To foray into Mall cum Hypermarket format – an upcoming sector with immense untapped potential
- To enable effective utilisation of the surplus cash generated by the ACP business of JIL for growing this business
- To enable the company to attract a different set of investors, strategic partners who can bring relevant experience for the growth of this business
- To provide growth prospects to shareholders and enable value creation

This Scheme has been drafted by Amarchand Mangaldas and on successful implementation of the scheme it is envisaged that the promoter holding in JIL will be at **65.5%** from the current level of 47.5%, on account of fresh issuance of shares by JIL, on account of this transaction.

This business restructuring between JIL, JACPL and EOPL will enable focused growth and value realization across operating entities and is in the best interest of the shareholders, creditors and employees and would result in enhancement of shareholder value for all entities.
